ABOUT ME

Experienced Full-Stack Developer with hands-on expertise in building end-to-end applications using modern technologies like Node.js, React, Vue, .NET, and Flutter. Adept at working across the technology stack—from intuitive front-end interfaces to robust backend services, databases, real-time features, and cloud deployments. Passionate about clean code, performance optimization, and delivering high-quality, scalable digital products

SKILLS

Frontend: React.js, Vue.js, Blazor, Razor Pages, .NET MVC — responsive, component-based UI development.

Backend & API: Node.js (Express, NestJS, Hono), ASP.NET Core — secure and high-performance API and service design.

Mobile & Cross-Platform: Flutter, .NET MAUI — building mobile and desktop apps from a single codebase.

Databases: PostgreSQL, MySQL, MongoDB — schema design, optimization, and data handling.

DevOps & Tools: Git, CI/CD, VPS/Docker/Nginx, cloud deployment, SEO & performance tuning.

Development Experience: SaaS Apps, E-commerce, CMS, real-time features (WebSockets), payment integrations, end-to-end product delivery.

EDUCATION

Bachelor of Computer Applications

Manipal University Jaipur

Mar 2022 – March 2025

EXPERIENCE

Full Stack Developer (Remote Job / Freelance)

Bizreck Solutions, Noida UP, India / Self-Employed

Feb 2023 – Present

- Designed and developed full-stack applications, delivering secure and scalable solutions for SaaS, e-commerce, and custom business systems.
- Built REST APIs with authentication, complex business logic, real-time WebSocket features, and payment gateway integrations.

- Developed responsive front-end applications using modern component-based frameworks (React/Vue).
 - Architected cross-platform mobile and desktop apps with Flutter and .NET MAUI.
 - Managed cloud deployments, CI/CD pipelines, and server environments (Docker, Nginx).
 - Collaborated directly with clients to gather requirements, estimate effort, design solutions, and deliver production-ready systems.
-

PROJECTS

- **Incident Reporting Online (IRO)**
Full-stack system for structured incident and operations reporting with web, mobile & desktop interfaces.
- **Eagis – AI Health Hub**
Healthcare platform combining AI assistance, appointment management, and digital consultation tools.
- **Urvigo – SaaS Application**
Comprehensive service-listing SaaS with real-time chat and vendor dashboard features.
- **Laundramoon – Laundry Services App**
End-to-end laundry booking system with secure payments and admin dashboard.
- **London Taste Models**
Web application for model listings and streamlined booking functionality.

TECHNICAL HIGHLIGHTS

Languages: TypeScript, JavaScript, C#, Dart

Frontend: React, Vue, Blazor

Backend: Node.js, ASP.NET Core

Mobile: Flutter, .NET MAUI

Databases: PostgreSQL, MySQL, MongoDB

DevOps: Docker, CI/CD, VPS, Nginx

Testing: Vitest, Jest, Playwright

Cloud: Server deployments, performance optimization

Languages: Fluent in English and Hindi.

Nationality: India.

Visa Status: Resident Visa UAE.
